Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to applicants' communication filed 12/12/06.

Claims 1-18 are pending in this application.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 12/12/06 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.
2. Rejection of claims 1-12 under 35 USC 112 2nd paragraph and 101 are hereby withdrawn subsequent to applicants' amendments.

Claim Rejections - 35 USC § 103

3. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over combined teachings of WO'709 and WO'158, all for the reasons of record.

Instant claims are directed to method of treating or preventing urokinase associated receptor associated diseases using the guanidino substituted compounds of claim 1.

Applicants' arguments were fully considered and were not found convincing. Applicants argue that compounds of WO'158 are quite different from the compounds recited in the present claims. Those compounds are amidino substituted compounds as against guanidine substituted claimed in herein. Applicants further argue that there is no suggestion that one of ordinary skill in the art would be motivated to use guanidine compounds using the WO'158 reference.

The examiner respectfully disagrees with the applicants. Applicants have only analyzed WO'158 and not in combination with WO'709. WO' 709 is teaching equivalence of amidino and guanidino substituent, see page 6. WO'158 is teaching amidino substituted compounds to be associated with urokinase receptor, and thus one of ordinary skill in the art would be motivated to use guanidine substituted compound for treating or preventing urokinase associated diseases, absent evidence to the contrary, given that both the reference are teaching structurally similar compounds and composition. With respect to new claims, WO'158 expressly teaches trisubstituted phenyl, see page 6.

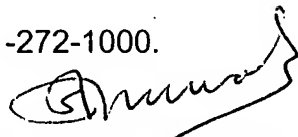

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
